

Symptoms of liver cancer can be difficult to recognise

- **New or persistent symptoms?**
- **Worried or unsure?**
- **Speak to your GP**

These symptoms don't always mean cancer, but should be checked.

- 01 Pain in your tummy, right shoulder or back
- 02 A swollen tummy or a lump in your tummy
- 03 Yellow skin and whites of eyes (jaundice)
- 04 Losing weight without trying

If you do notice any of these symptoms, or are worried or unsure, speak to your GP.

- **Know the signs**
- **Act early**
- **Talk to your GP**

Liver Cancer Awareness Month

October
